## Responsibilities

- Individually handling large volumes of product efficiently and carefully
- Clean and sanitize all equipment as necessary
- Responsible for carrying out Food Safety Guidelines

## Qualifications

- Experience in a warehouse or distribution center is preferred
- Needs to be a highly motivated individual with the ability to work well with others
- Able and willing to work on weekends
- Ability to lift 50+ lbs and be on work on their feet for the entire day
- Ability to communicate well and follow instructions from supervisor

## Company Overview

Eden Valley Farms is committed to strengthening our rural communities by producing lettuce and herbs of the highest quality. Our hydroponic greenhouse facility allows for year-round production for retailers in the Midwest. We aim to streamline the process from seed to shelf while increasing sustainability and traceability for our local consumers.
